Re: StarTran TIP Amendment

Mr. Brienzo:

The current, FY 2009-2014 Transportation Improvement Program includes Project #8, Automated Vehicle Location Enhancements, in the FY 2008-09 element.

StarTran requests that an administrative change be made to the 2008-09 TIP to add \$180.1 FA and \$45.0 SR from an old project to project #8. These reprogrammed funds are from a Farebox project in 2004-05. The initial bid and final cost for the Farebox project was under budget and therefore StarTran would like to expend the remaining funds on an already approved and similar project.

The current project, Automated Vehicle Location Enhancements needs additional funds in order to successfully complete the project. We request these funds to be transferred by the end of the federal fiscal year, September 30, 2009. Project #8 currently has \$150.0 of federal stimulus funds already programmed. The revised amount would be:

	150.0 FTA Transit Stimulus
	180.1 FA
	<u>45.0 SR</u>
Total	375.1

Sincerely,

Larry Worth, StarTran Manager
